MOVING WALKWAYS AND ESCALATORS

A significant number of accidents/incidents at BWI Marshall Airport involve moving walkways and escalators. This requests your attention to, and compliance with, safety practices on these “people moving” devices. The Maryland Aviation Administration/BWI Marshall Airport safety guidelines prohibit carts, dollies, walkers, wheelchairs, strollers, or horseplay on moving walkways and escalators. Please see the attached Safety Bulletin and disseminate widely. Help us move toward our goal of an accident free environment.

Thank you for your attention to this important safety topic.
