ROADWAY AND CURBSIDE TRAFFIC COUNT AND SURVEY

Between Thursday, December 10, 2022 and Thursday, December 17, 2022, HNTB Corporation and Daniel Consultants, Inc. (DCI) will be conducting traffic surveys of BWI Marshall Airport terminal roadways and the curbside through the following means of collection: tubes, cameras, and staff.

Overall, 13 tubes will be installed: 11 along various terminal roadways and two (2) at the curbside exits (both upper and lower levels). In order to differentiate the mix of vehicular traffic, a total of 11 cameras will be sited along the curbside: 10 on the lower level and one (1) on the upper level. Throughout the survey, staff will periodically visit to monitor equipment and observe traffic. Except for equipment setup and removal, surveyors will not interface with vehicle operators or passengers. Traffic disruption will be kept to a minimum.

The points of contact are Pavan Velpuri (DCI) at 860-271-9907, Abraham Mekonen at 202-308-9267, or Shawn Ames (MAA) at 410-859-7089.
