ELECTRICAL SUBSTATION ST-AB REPLACEMENT ELECTRICAL OUTAGE

In support of the Electrical Substation ST-AB Replacement design task, an electrical outage is required for Substation ST-AB (located in BT146) on the night of January 25 into Thursday, January 26, 2023. This outage will occur between the hours of 12:01 a.m. and 3:00 a.m. In the event the outage cannot occur on this date, a backup date of Thursday, January 26 into Friday, January 27, 2023 has been established. During this outage, the following electrical loads originating from Substation ST-AB will be de-energized and impacts will be experienced in the area of the South Terminal.

- Arrivals level Inbound Baggage Claims 6, 7, 8, and 9; and associated Baggage Service Offices for Southwest Airlines (South Terminal), American Airlines, and Alaska Airlines; and local Flight Information Display System (FIDS) monitors
- Outbound TSA Screening and Baggage Handling System for American Airlines
- Arrivals level Chimes Rooms BT144 and BT152
- AAWDC/BWI Business Partnership Suite (CT101)
- Various HVAC equipment served from MER #3 and MER #4
- Communications Rooms BT154, ST122, ST128, ST104B, and ST204
- Electrical Rooms ST104, ST122A, BT146, ST202, ST200E, MER #4 MCC
- Arrivals level interior common area lighting and power
- Miscellaneous lower level roadway lighting
- Various vestibule entry/exit doors at South Terminal and BWI exterior taxi stand
- Southwest Airlines International ticket counter and American Airlines ticket counter and support spaces
- Terminal Ambassador suite, Maryland Aviation Administration Lost and Found, and Custodial Services suite
- South Terminal Concession Food Court, Dunkin Donuts, Ledo Pizza, and nearby concession support spaces

See attachment for floor plan of anticipated areas that will be impacted. Work is being coordinated with affected tenants, TSA, and Maryland Aviation Administration offices.

All tenants in the affected areas should take precautionary measures for a power outage on the date listed above. This known outage provides a good opportunity for tenants to test UPS systems. In the event of a power outage, all life safety systems including fire protection and emergency lighting systems will operate as designed utilizing backup power.

If there should be an interruption to electrical services unexpectedly, please contact the Building Maintenance Supervisor's office at 410-859-7200. Anyone having concerns or specific operational needs should contact the Maryland Aviation Administration as follows:
