

TENANT INFORMATION ADVISORY

Retention: December 29, 2023

November 14, 2023

23-049

SUBSTATION MAINTENANCE AND REPAIRS

Maintenance is scheduled for the following electrical equipment at Baltimore/Washington International Thurgood Marshall Airport. All tenants in the affected areas should take precautionary measures for a power outage on each of the dates listed below. The known outages provide a good opportunity for tenants to test UPS systems. If security systems are affected, contractor will arrange for alternate power prior to the commencement of work. In the event of a power outage, all life safety systems including fire protection and emergency lighting systems will operate as designed utilizing backup power. If there should be an interruption to electrical services unexpectedly, please contact the Building Maintenance Supervisor's office at 410-859-7200.

Monday, December 4, 2023

2:00 a.m. – 2:45 a.m.

Equipment to be serviced:

Switching from the North main breaker to the South tie breaker

Switchgear 1 and Switchgear 2

(No outages expected)

Affected areas:

Switchgear 1: Lower and Upper Levels of Central Terminal, North Terminal Extension, North Terminal, and International Terminal; Lower and Upper Levels of Concourses C, D, DY, DX, and E; Third Floor (MAA); Fourth Floor (FAA); Runway 28 Deice Pad; and Airfield Lighting Vault

Affected areas:

Switchgear 2: Central Utility Plant, Runway 15R Deicing Pump Station, Power Gate A, all levels of the Daily Garage, Lower and Upper Levels of International Terminal and Concourse E including all loading bridges, and TSA international baggage screening
