## **NEW AIRFIELD LIGHTING VAULT PERMANENT POWER CONNECTION**

---

The work includes, but is not limited to, energizing the South feeder to the South Medium Voltage Switch and energizing the North feeder to the North Medium Voltage Switch located at the new Airfield Lighting Vault at BWI Marshall Airport. No long-term interruption to service is expected; however, all tenants in the affected areas should take precautionary measures for a potential power outage on each of the dates and times listed below. If security systems are affected, contractor will arrange for alternate power prior to the commencement of work. In the event of a power outage, all life safety systems including fire protection and emergency lighting systems will operate as designed utilizing backup power. If there should be an interruption to electrical services unexpectedly, please contact the Building Maintenance Supervisor's office at 410-859-7200 as well as the construction team points of contact below.

Work Occurring on Substation C-1 – Date: TUESDAY, MAY 21, 2024 (pending weather):
