## AIRFIELD SERVICE EQUIPMENT REMOVAL INITIATIVE

---

As part of BWI Marshall Airport's initiative to clean up and remove derelict vehicles and service equipment, BWI Marshall Airport Operations will be coordinating the voluntary effort to remove unwanted equipment at no cost to the tenant. To accomplish this initiative, BWI Marshall Airport Operations will contact all ground service handlers and airlines to coordinate the identification of unwanted and surplus equipment. Red X's will be placed on items agreed upon to be removed from the airfield.

Any equipment that cannot immediately be removed and needs corporate level authorization before salvage will be documented by BWI Marshall Airport Operations and will be reviewed within 30 days of initial contact. This will allow your company to identify and assess the need for the equipment on the airfield before BWI Marshall Airport Operations inquires about removal again.

This effort is necessary in order to better serve the tenants, their employees, and their customers by providing a safer and better working environment for everyone on the airfield. BWI Marshall Airport Operations is asking for everyone's cooperation and adherence to this initiative to better serve everyone's needs at the Airport.

The point of contact is BWI Marshall Airport Operations at 410-859-7018.
