SWITCHGEAR 2 ELECTRICAL OUTAGE NORTH MAIN SUBSTATION UPGRADE

Maintenance is scheduled for the following electrical equipment at Baltimore/Washington International Thurgood Marshall Airport. All tenants in the affected areas should take precautionary measures for a power outage on each of the dates listed below. The known outages provide a good opportunity for tenants to test UPS systems. If security systems are affected, contractor will arrange for alternate power prior to the commencement of work. In the event of a power outage, all life safety systems including fire protection and emergency lighting systems will operate as designed utilizing backup power. If there should be an interruption to electrical services unexpectedly, please contact the Building Maintenance Supervisor's office at 410-859-7200.

Thursday, October 3, 2024

Friday, October 4, 2024

Work will take place from 1:30 a.m. through 3:00 a.m.

Equipment to be serviced: Switchgear 2
 (Full outage expected)

Affected areas: **Switchgear 2:** Central Utility Plant, Runway 15R Deicing Pump Station, Power Gate A, all levels of the Daily Garage, Lower and Upper Levels of International Terminal and Concourse E including all loading bridges, TSA international baggage screening, and Customs and Border Protection areas

Anyone having concerns with the work or specific operational needs should contact the Maryland Aviation Administration as follows:
